

SMOOTH EFFICIENCY

Commuting by car is a chore. Commuting by bike, especially one designed for it, is quite the opposite.

We help you arrive in style, with lightweight polycarbonate fenders on the Commuter 2.0, 3.0, and 4.0 and an integrated pant guard on all models, so you can be a bike commuter without looking like a bike commuter. A suspension seatpost and memory foam padded saddle smoothes your path, while the arcing sweep of our classically-shaped handlebar puts shifters and brake levers within easy reach, your wrists at a natural angle for comfort and control.

We make getting there easy with a light alloy frame and simple-to-operate, low-maintenance drivetrains that offer plenty of gearing to flatten hills and generate speed, all rolling on cushy, large diameter 700 x 32c tires that spin with smooth efficiency for a nearly silent, plush arrival.

Getting to work shouldn't be, well, work. There's plenty of time for that once you hit the office. Bookend your workday with something that makes you feel good. Decompress on a Commuter and go home grinning.

Color: Cream
 Sizes: M: 14.5", 16.5", 18.5", 20.5", 22"
 W: 14.5", 17.5"
 Weight: 30.50 lbs

Commuter 4

FRAME
 6061 aluminum, sloping double triangle frame design, Future-Form super-lite custom fenders with SS hardware.

FORK
 Aluminum straight blade for disc with cro-moly steerer.

WHEELS
 Weinmann SPHYNX double wall 700c rims w/eyelets, Shimano Nexus 8-speed internal rear & Formula alloy QR front hub, stainless steel spokes.

TIRES
